Technical Skills

Programming Languages: Python

Web Development: HTML, CSS, JavaScript, Bootstrap, React, Node.js, Express.js

Databases: MySQL, Firebase

Other Skills: Machine Learning, Data Structures

Education

Vellore Institute of Technology

Bachelor of Technology in Computer Science sp. in AI & ML | CGPA: 7.75

Bhopal
Sep 2021-2025

Projects

WeTop | C++, CSS, JavaScript, Bootstrap, MySQL

Developed a dynamic web portal for students, parents and faculties of the institute.

- Integrated server with website to handle user authentication, student info, and fee management, ensuring efficient backend processes.
- Designed responsive user interfaces with Bootstrap, providing a seamless browsing experience across devices.
- Utilized MySQL for database management, optimizing queries to improve data retrieval speeds.
- Implemented an AI bot helping users to navigate efficiently.

Sudoku Solver | Python, OpenCV

- Developed a computer vision-based Sudoku solver that reads an image of a Sudoku puzzle and fills in the correct numbers automatically.
- Engineered the model using Python, OpenCV, and NumPy, achieving accurate digit recognition [0-9] and ensuring seamless puzzle-solving capabilities.

Work Experience

Full Stack Intern | Ethnus

Remote
Aug 2023-Nov 2023

- Developed and deployed a task scheduling application with integrated email notifications, improving task management efficiency.
- Built a responsive and dynamic UI using React.js, ensuring a seamless user experience.
- Engineered a scalable backend with Node.js and Express.js, optimizing server-side performance and API efficiency.

Certifications

- **Applied Machine Learning in Python:** Earned from University of Michigan on Coursera, learned about the fundamentals of application of machine learning.
- **Machine Learning Certification:** Earned from Stanford University on Coursera, gained deep knowledge and insights about machine learning algorithms and their applications.
- **AWS Cloud Practitioner:** Certification earned from AWS, got familiar with basic concepts of cloud based computing and server management.

Achievements

- Maintaining a 300+ days streak on GeeksforGeeks and 120+ days on Leetcode.
- Excelled in coding competitions with top 10% finishes and explored machine learning algorithms.
- Delivered projects that directly contributed to enhancing efficiency and productivity, showcasing my ability to drive real-world impact and adapt to industry standards.
